Experience the magic of Cairo after dark on an unforgettable Guided Night Tour. As the sun sets, the city transforms itself into one bright shining jewel, with lively streets and rich cultural charms. A nice hotel pick-up marks the beginning of a journey where you meet your expert guide to take you through the illuminated landmarks of Cairo. From bustling squares to historical sites, this visit will give its guests a one-of-its-kind sweeping view of this Egyptian capital at night.

Start by coming over to Tahrir Square, which is probably the best-known square in Egypt, for a panoramic view of the vibrant nightlife of the city. Now head to Cairo Tower; here, you can view the whole city - it has amazing 360-degree sights from high above, clearly all the city lights sparkling along the Nile. Walk on the Corniche, a beautiful riverside walkway followed by a traditional felucca ride on the Nile-an experience from peaceful, romantic-looking, within the city. Visit the Mohamed Ali mosque at the Citadel, one of the most gloriously illuminated mosques of Cairo and among its brightest treasures.

No night tour could be complete without losing yourself among the sounds of Khan El Khalili Bazaar: where smells of spices hang heavy, the street musicians invade the airwaves, and the stalls glisten in lantern light. Go deep into a real traditional cafe to taste a cup of genuine Egyptian tea. Enjoy that authentic feeling. If time allows, share a tasty local dinner at a rooftop restaurant with a mesmerizing view of the city skyline. But if that is insufficient, nothing can match enjoying all this under the cover of a night and immersing into the essence of the city-guided night tour, which perfectly captures the soul of the city after dark, making memories that last in a city never sleeps.
