### [Itinerary](#)

## **Day 1: White desesrt tour**

On the first day of your trip, you will be taken from your hotel in Cairo, then you will travel all the way by AC car to the Bahrayia oasis to start your visits in the white desert, starting with.

The white desert:

The reserve includes some desert trees and a group of rare and endangered wild animals such as the white deer and the Moorish ram and contains many fossils dating back millions of years.

Valley of El Haiz:

which was found on the ruins of the Roman fortress as one of the most northern garrisons in the Western Desert

Crystal mountain;

It is located within the White Desert, 120 km from the Farafra Oasis, and 160 km from the Bahariya Oasis. It is considered one of the rarest mountains in the world, as it is a whole mountain of different crystal ores, where there are more than 12 types of crystal, gathered together in a huge mountain mass.

Valley of Agabat:

Agabat, known as the 'Beautiful Valley', is located in the Western Desert region of Egypt and generally is the stop-off point for tourists on their way to Bahariya and the White/ Black Deserts.

at the end you will be taken all the way to the Sandrose hotel, to spend an overnight.

Daymeals: Lunch, Dinner.

## Day 2: Last

On the second day of your tour, you will be taken from the hotel to start the day visits after you have your breakfast.

The Golden Mummies Hall:

The archaeological discovery came by chance by the guard of the Temple of Alexander the Great, Sheikh Abdel Mawgod, whose donkey stumbled in a hole near the temple, to discover the first tomb in this huge cemetery, containing the mummies of men, women, and children, covered with gold.

Tombs of the Nobles:

that possess a lot to be seen from the mysteries of the ancient rulers of the oasis. (Tomb of Zed-Amun-Ef-Ankh and Tomb of Bannentiu which have been re-used for group burials).

Temple of Ain El-Meffetla:

at the Northwest of Bawiti. The temple contains four chapels belonging to the [26th dynasty](#) of ancient Egypt history the chapels were found in 1939 by Egyptian scientists.

Salt Lake:

Great Salt Lake is salty because it does not have an outlet. Tributary rivers are constantly bringing in small amounts of salt dissolved in their freshwater flow. Once in the Great Salt Lake, much of the water evaporates leaving the salt behind.

palm and fruits gardens this will be your last spot then you will be taken to travel back to Cairo to your drop-off location which will be our end of service.

Day meals: Breakfast, lunch.
