Long ago, there was a special place called Al Turaif district. This place was very important because it was where the rulers of Saudi Arabia used to live. In fact, it was even the capital of the country a long time ago. The buildings in Al Turaif are very old and special, so they have been given a special title by a group called

At the end, we will go to a special library called The King Fahd National Library. It is a really cool building with a unique design. This library is important for Saudi Arabia because it keeps copies of all the books published there. It was built in 1983 because the people of Riyadh wanted to honor their new king, King Fahd. It is now a popular place for tourists to visit, but it is closed on Saturdays and Fridays.
