Egypt
Giza

Among the abundant offerings in Egypt stand the pyramids which every cardinal cannot do without. Here we understand the extensive preparation for your enjoyment of the pyramids in a number of ways. Top off this Safari Trip to the Pyramids from Port Said Port in a van with a special panorama to see Giza Pyramids at close range. The Giza Pyramids are one of the Seven Wonders and they were constructed roughly over four thousand five hundred years embodied in this earth. History records that there are more than one hundred and twenty pyramid-like structures in Egypt, which eight are the Pyramids of Giza. This towering structure of mud bricks is roughly the same distance away as the Step Pyramid of Saqqara, which we will see later this afternoon on our tour.

The day will begin with a drive up to the Giza Plateau, and you will listen to the guide explaining about the pyramids of Khufu, Khafre, and Menkaure. The excursion will also include a stop at the Great Sphinx and which is found in the Valley Temple of Khafre where Egypt's famous tombs are located. The tour will then conclude later on in the day with your departure back to Port Said.

Itinerary

Pyramids Desert Safari Trip from Port Said

For enthusiasts of adventure and safari like you, the Pyramids Safari Trip from Port Said is an excellent option. It is an unusual trip that allows guests to see the pyramids which have left many modern day theorists

dumbfounded as to their accuracy and precision, even with modern day technology. It is an adventure that will tickle your fancy and you can enjoy the terrain riding on a quad bike or a camel.

The guide will enhance your trip by explaining to you some special facts about ancient Egypt which includes mummification and the rationale behind the building of the pyramids. You will get to see also the Saqqara area, which contains fascinating monuments such as the tombs of Egyptian aristocrats and the well-known Step Pyramid of Djoser. These historical edifices represent a classic case of ancient Egyptian skills in designing and erecting buildings from the beginning of mankind's history.
